PROFILE

Economist specialising in applied econometrics, statistics and data analysis. I turn complex datasets into reproducible models, interactive dashboards and clear decision-support tools using R, Python, SQL and Power BI.

CURRENT EXPERIENCE

Senior Data Analyst - Freelance

2026 - Present

Datexbio

Redesigning and extending a production R Shiny analytics application for territorial inspection monitoring and decision support. Integrated updated sources, standardised analytical logic, rebuilt filters and territorial comparisons, and developed operational maps and views while preserving existing functionality.

PRODUCT	DATA	SPATIAL
R Shiny redesign	**13 Excel sources**	**GIS & Leaflet**
Preserved existing functionality while restructuring filters and views.	Integrated updated datasets into one coherent analytical workflow.	Built territorial maps, comparisons and operational monitoring views.

SELECTED PROJECTS

PYTHON DASH
Supermarket Sales
Interactive KPI dashboard with city/gender filters, category mix and weekly sales evolution.
Live demo GitHub

R SHINY
Goodreads Explorer
Book discovery app with reactive filters, KPIs, recommendations, reading list and author geography.

ECONOMETRICS
Inflation: Spain vs France
Quarterly macro research (1997Q1-2025Q4) with dynamic models, diagnostics and HAC-robust inference.

POWER BI
Campus Coffee
Management cockpit for revenue, margin, customers, waiting time, average basket and channel performance.

ADDITIONAL EXPERIENCE

International Student Tutor - Volunteer — **2023**

University of Valencia · academic, cultural and administrative support for international students

HONORS & ACHIEVEMENTS

Becas Europa — National Finalist

Selected by the Becas Europa programme as one of Spain's top 100 students.

EDUCATION

Master's in Applied Econometrics (ECAP)
2025-2027
Nantes Université - IAE Nantes
Advanced econometrics, statistics, modelling and data analysis.

International Double Degree in Economics
2022-2026
University of Valencia / IAE Nantes
Economics, quantitative analysis and Master 1 in Economic Analysis & Policy.

TOOLKIT

Code R · Python · SQL
BI & apps Shiny · Dash · Power BI
Data Excel · BigQuery · Git
Spatial sf · Leaflet · Plotly

SKILLS

Hard skills: Econometrics · statistical modelling · time series · forecasting · categorical models · PCA/MCA · PLS/PLS-DA

Soft skills: Critical thinking · problem-solving · creativity · adaptability · leadership· initiative · teamwork
